

# What's been happening at Dovestone Gardens

An update on Burnley's first extra care scheme

## Upcoming sessions

- Marketing materials workshop with customers.
- Allocations workshop
- Apartment types and layouts

If you would like to come to any of these sessions, please can you confirm your attendance by contacting us:

lynne\_participationworks@yahoo.co.uk.

## A First look inside Dovestone Gardens

We have shared CGI footage for the first time of inside Dovestone Gardens. The images show an insight into the facilities that will be available onsite including a bistro open to the public.

The 4-storey building has 71 x 2 bed apartments and 22 x 1 bed apartments and will have 50 car parking spaces with a mixture of resident and short stay visitor parking.

The CGI footage has been developed by freelance 3D artist Sam Calvert and the interior design work of Dovestone Gardens has been carried out by Studio Henderson who have worked on development projects across the North West. Dovestone Gardens has been designed by architects, Brock Carmichael.

## Ring Stones praised for standard of work

Ring Stones have been praised for the standard of ethical work being carried out on Dovestone Gardens by the industry's independent assessor.

Ring Stones' work has been rated 'excellent' by the Considerate Constructors Scheme which is aimed at raising standards within the construction industry to build trust with the public in construction activity.

Ring Stones received full marks in the categories of respecting the community and valuing the workforce for work. The assessor singled out examples of good practice including customer engagement sessions, local school visits, 96.83% of total waste from the site has been recycled and a total of 2149 apprentice hours have been carried out on site so far.

## Talking through the Landscape

In February, we hosted a landscaping workshop at the Prairie Sports Village to talk through with customers what the outdoor space at Dovestone Gardens should be like for you.

You may have also noticed a photographer at the most recent session, Head over to our website or social media to see the results.

# What we are doing with your Feedback

We are constantly reviewing and re-looking at the way we engage with you

Based on the feedback given to us at our sessions, we now use a microphone to be louder and present in a variety of ways to allow different needs to be met for those who are visually impaired.

We are also looking at ways to have more formal and then less formal sessions with some sessions focusing on more specific topics. We will also be looking at hosting drop-in sessions to have a face to face catch up and discuss any questions you may have.

# Thank you

We truly appreciate the time and effort you spend in coming to our Customer Focus sessions and reviewing with us the parts of the project that we have come to share with you. Your thoughts and feedback has proven to be an essential asset, allowing us to gain a deeper understanding of how our extra care development can best meet the needs and expectations of our residents and the surrounding community.
